

CAPITAL BUDGET 2016/17

APPENDIX 2

Capital expenditure is expenditure over £10,000 on the acquisition or improvement of assets of the Authority which have a useful life of more than one year. All assets are shown on the Authority's balance sheet in the Statement of Accounts. Assets are depreciated over their useful life and this depreciation is charged in the Statement of Accounts to the Revenue Account, in order to show the annual cost of the use of assets by services. The depreciation charge is subsequently reversed out and the cost which is charged against National Park Grant is either the actual capital expenditure paid (if financed from revenue), or the amount of debt interest and a statutory Minimum Revenue Provision sum, representing the setting aside of a fixed amount of loan principal each year (if financed from borrowing). This means that the depreciation charge is shown in the accounts as a notional charge only.

The Capital Budget is financed from a number of sources:-

- capital grants: specific grants received towards the expenditure.
- capital receipts reserve: a cash reserve holding the sale proceeds of any asset sold previously.
- borrowing: within the borrowing limits set out in the Prudential Code (March 2016 report).
- financed from Revenue: monies towards capital expenditure, if available from revenue budgets.

Column A shows the amount of new capital expenditure which will take place in 2016/17 approved by this report. **Column B** shows the amount estimated to take place in the year arising from previously approved expenditure. Capital expenditure not yet approved (whether delegated or not) is not shown.

£,000 2016/17 Budget

	A New	B Approved	Total
Acquisition of Land and Existing Buildings
