

2019/20 Annual Governance Statement

Scope of Responsibility

The Peak District National Park Authority ('the Authority') is responsible for ensuring that its business is conducted in accordance with the law and proper standards and that public money is safeguarded, properly accounted for, and used economically, efficiently and effectively. The Authority also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

In discharging this overall responsibility, the Authority is responsible for putting in place proper arrangements for the governance of its affairs, and facilitating the effective exercise of its functions, which include arrangements for the management of risk.

The Authority approved and adopted a Code of Corporate Governance in February 2017 which is consistent with the principles of the CIPFA/SOLACE (Chartered Institute of Public Finance and Accountancy/Society of Local Authority Chief Executives) Framework Delivering Good Governance in Local Government published in April 2016. The Code is reviewed annually and if needed updated appropriately including taking into account guidance such as the CIPFA statement on the Role of the Chief Financial Officer (2010), the CIPFA statement on the Role of the Head of Internal Audit (2010) and the CIPFA code of practice on Managing the Risk of Fraud and Corruption (2014). A copy of the Authority's Code of Corporate Governance can be obtained from the Monitoring Officer at Aldern House, Baslow Road, Bakewell, DE45 1AE or can be found on our website at:

<http://www.peakdistrict.gov.uk/publications/operationalpolicies>.

The following statement reports on the outcome of the review of the effectiveness of the Authority's governance arrangements, and also meets the requirements of the Accounts and Audit Regulations 2015.

The Purpose of the Governance Framework

The governance framework comprises the systems, processes, culture and values, for the direction and control of the Authority and its activities through which it accounts to, engages with and leads its National Park 'community' (locally, regionally and nationally). It enables the Authority to monitor the achievement of its strategic outcomes and objectives and to consider whether these objectives have led to the delivery of appropriate services and value for money.

The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the Authority's policies and outcomes, to evaluate the likelihood and potential impact of those risks being realised, and to manage these risks efficiently, effectively and economically.

The elements of the governance framework identified in our Code of Corporate Governance have been in place at the Authority for the year ended 31 March 2020 and up to the date of finalising this statement on 22 May 2020 for publication by the end of May 2020. The statement will be revised prior to reporting to a meeting of the Authority in July 2020 to reflect any significant changes which may occur prior to that date.

The Governance Framework

The Authority's corporate governance framework, as enshrined in our Code of Corporate Governance, helps us to ensure that the principles of good governance are embedded in all aspects of our work. The key aspects of the corporate governance framework include:

(a) The Authority's work, in pursuing its statutory purposes and duty, is governed by a number of key policies and plans including the Defra (Department for Environment, Food and Rural Affairs) circular, the National Park Grant Memorandum, the 8 Point Plan for England's National Parks and the recently published 25 Year Plan to Improve the Environment. The Authority communicates its vision and intended outcomes for the National Park working with partners over a 5-10 year period, through the National Park Management Plan (NPMP). This is reviewed every 5 years and is supplemented by a number of key National Park strategies and action plans also working with partners. A partnership protocol is in place to support our work with partners. Work on reviewing the NPMP has been completed so a plan is now in place for 2018 to 2023. Progress against the NPMP is monitored by a stakeholder Advisory Group which is independently chaired. Progress will be monitored against six areas of impact.

(b) The Authority's contribution to achieving the NPMP outcomes is described in our corporate objectives. The 2019/20 Corporate Strategy was published a year after the NPMP was approved to ensure the Authority captured the key areas of work it is responsible for in the NPMP in its own corporate objectives. The Authority reports to the independent Advisory Group on its own contribution to the NPMP.

(c) The Performance and Business Plan provides an annual work plan for the Authority showing priorities for action in the forthcoming year, measures of success, targets for performance and allocation of resources. The agreement of this follows a detailed planning process aimed at ensuring the economical, effective and efficient use of resources. We have set realistic, yet ambitious, targets to support our mission to inspire millions of people so together we will protect and care for our National Park for the enjoyment of all.

(d) During 2019/20 the Corporate Strategy has provided a steer for leading and managing change in light of external pressures on the Authority and has guided our budget planning process. The Strategy also focuses on how the Authority will deliver its contributions to the National Park Management Plan. Each outcome identified in the Strategy has a key performance indicator and target, alongside a set of strategic interventions that will guide our work.

(e) Following the adoption of the Authority's Core Strategy in October 2011, work has continued to complete both Development Management Policies and detailed supporting guidance. Collectively this suite of policies and supplementary guidance forms the Authority's Local Development Plan which provides a basis for greater clarity and certainty in decision making over the next 10-15 years. As the National Planning Policy Framework states that local planning authorities should review their Local Plans every 5 years, in March 2019 the Authority agreed the process and timescales for carrying out a review and this process has progressed during 2019/20.

(f) Our seven integrated principles set out our ways of working in terms of how we engage with people, both resident and non-resident and these are reflected in our Corporate Strategy. During the year the Investors in People (IiP) Delivery Group has responded to one of the key recommendations in our IiP audit to develop a set of core values for the organisation. These have been developed by a cross section of staff and following engagement and consultation with all staff, Members and volunteers. These value were launched for the start of the 2020/21 financial year and replace the 7 integrated principles.

(g) The Authority's performance management framework ensures that:

- the 'golden thread' is in place with all individual work programmes linked through the service planning process to achieving corporate objectives/priority focus and National Park Management Plan outcomes
- measures of success are identified and targets set for performance
- resources are allocated to priorities
- risks to achieving corporate objectives are considered and mitigating action identified at corporate and service levels
- performance and the changes to risks are monitored regularly throughout the year
- areas for performance improvement are identified and addressed both in the short term and as part of medium term performance improvement planning. This includes addressing issues arising from strategic, value for money and scrutiny reviews, and external/internal audit and inspection reports.

(h) The Authority's Standing Orders, and other procedures describe how the Authority operates and how decisions are made. They also define the terms of reference for committees and the Authority meeting including the role of the Authority in standards issues. The prime objectives are to operate effectively, efficiently, transparently, accountably and within the law. Our Standing Orders are supplemented by:

- Scheme of Delegation (which is regularly reviewed)
- Codes of Conduct and guidance for Officers and Members
- Policies and Procedures including the Anti-Fraud and Corruption Policy and the Confidential Reporting (whistle blowing) Policy
- Protocols on (i) Member/Officer Relations, (ii) Monitoring Officer and (iii) Development Management and Planning
- Complaints procedures
- Our scrutiny process led by Members

(i) Arrangements are in place to ensure compliance with relevant laws and regulations, internal policies and procedures and that expenditure is lawful. These include:

- requirement in our financial regulations and Standing Orders for technical advice to be sought including legal and financial advice from the Monitoring Officer and Chief Financial Officer
- reports for decisions including reference to relevant policies and procedures
- professional expertise and knowledge of staff employed by the Authority
- professional expertise of contractors and consultants where not available in house
- scrutiny provided by internal and external auditors. The internal auditor has had regular and open engagement across the organisation particularly with managers of the Authority and with Members through both the former Audit Resources and Performance Committee and now Authority meetings.
- a risk based internal audit strategy and annual plan
- reports from external bodies like the Local Government and Social Care Ombudsman, HM Revenue and Customs, Information Commissioner, Planning Inspectorate
- requirement to comply with relevant codes of practice and conduct mandatory for local authorities
- guidance received from time to time from Defra and other government agencies
- allocation of all income and expenditure to approved cost centres by Finance based on approved delegated decisions and business cases by Resource Management Meeting or Members, either at approval of the budget or during the year

(j) Arrangements are in place for 'whistle blowing' and for receiving and responding to complaints from employees if there are concerns about serious matters that could put the Authority and/or the wider public at risk. These arrangements are described in our 'confidential reporting policy'. This is given to all staff as part of their induction and is publicised through our website section titled 'standards and governance' which can be found at <http://www.peakdistrict.gov.uk>. The Authority's Complaints procedure provides a facility to those not employed by the Authority to raise their

concerns. Both policies were reviewed by Internal Audit in 2015/16 and given substantial assurances.

(k) Financial management includes forward planning of expenditure and resources, budget consultation, budget setting and monitoring and final accounts. The aim is to ensure that these are accurate, include information relevant to the user and are completed to agreed timescales. Financial Regulations - Our reporting arrangements meet the requirements of the CIPFA statement on The Role of the Chief Financial Officer (CFO) in Local Government (2010) with the CFO having independent reporting as necessary to the Chief Executive, Resource Management Meeting and Members even though the post holder sits in the Corporate Strategy and Development Directorate.

(l) Member and staff learning and development needs are identified and met through annual programmes. Our approach to staff development is described in our Learning and Development Policy. Our approach to Member development is described in the Member Learning and Development Framework document approved by the Authority in October 2016. Improvements to our approach on Member development, within resources available, are reported annually to the Authority as part of agreeing the annual programme of development and business events. During 2019/20 the Authority completed the process of gaining Investors in People reaccreditation and has an action plan in place to address areas for improvement.

(m) In December 2018 the Authority established a Member led Governance Review Working Group to review the Authority's Governance arrangements particularly around:

- the roles and responsibilities of Members and Officers
- delegations to Committees and matters reserved to the meetings of the Authority
- delegations to Officers
- the contribution and impact of the Member Representative role.
- Appointments to Outside Bodies

The first report of the Working Group was presented to the Authority in May 2019. At that meeting all the recommendations were approved and implemented in July 2019 following the 2019 Annual Meeting. Since then the Working Group has continued to meet and the second report was considered by the Authority in May 2020.

Review of Effectiveness

The Authority has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of effectiveness is informed by assurances from Officers and Members within the Authority who have responsibility for the development and maintenance of the governance environment (including financial controls, risk management and performance management processes, compliance with advice on legislation and regulations), internal and external audit reports and opinions, comments made by other agencies and inspectorates as well as feedback from customers and stakeholders.

The review of effectiveness is continual throughout the year as evidenced by some of the action taken during the year but a more formal assessment takes place each year in the preparation for this statement. In accordance with the Authority's Code of Corporate Governance a meeting was arranged to be held on 27 March 2020 to:

1. Review our performance against our action statements of commitment in our Code of Corporate Governance and highlight what we have done in the 2019/20 year which contributes to achieving our outcome of 'good governance'
2. Identify any further improvement action needed for the forthcoming year

Due to the Covid-19 Emergency the meeting could not take place but its objectives have been achieved remotely. This process has involved the Chief Executive, Director of Corporate Strategy

and Development, Director of Conservation and Planning, Director of Commercial Development and Engagement, Chair of the Authority, Chief Finance Officer (The Head of Finance) and the Monitoring Officer (Head of Law) and her Deputy (the Democratic Services Manager). In carrying out our review we took account of the 'assurances' we have received during the year (and at our virtual meeting) including:

- (a) External Audit Annual Audit Letter and unqualified opinion/satisfactory conclusions
- (b) Internal Audit reports for 2019/20 including the annual report and assurance opinion. Out of a total of 8 recommendations made over the year: none of them were classed as fundamental; 1 were classed as significant and 7 were classed as meriting attention. The 2019/20 annual assurance report from the internal auditor states: the overall opinion of the Head of Internal Audit on the framework of governance, risk management and control operating in the Authority is that it provides Substantial Assurance. This opinion is however qualified, in light of the current coronavirus pandemic and the impact of this on the Authority. The opinion at paragraph 9 is based on internal audit work undertaken, and completed, prior to emergency measures being implemented as a result of the pandemic. These measures have resulted in a significant level of strain being placed on normal procedures and control arrangements. The level of impact is also changing as the situation develops. It is therefore not possible to quantify the additional risk arising from the current short term measures or the overall impact on the framework of governance, risk management and control.
- (c) Assurances given from 'those charged with governance' including: members of the Leadership Team, Statutory Officers (Head of Paid Service, Chief Finance Officer, Monitoring Officer) and Chair of the Authority.
- (d) Progress against action we identified last year as part of our Annual Governance Statement
- (e) The most recent Local Government and Social Care Ombudsman's statistics
- (f) Our planning appeals performance and feedback from inspectors' reports
- (g) Any feedback from handling complaints, Freedom of Information and Environmental Information enquiries
- (h) Implementation of the action plan arising from achieving the Investors in People standard
- (i) Feedback and lessons learnt from legal proceedings
- (j) Testing our business continuity arrangements in response to the COVID-19 Emergency
- (k) Confirming, in accordance with CIPFA's Code of Practice on Managing the Risk of Fraud and Corruption that the Peak District National Park Authority has adopted a response that is appropriate for its fraud and corruption risks and commits to maintain its vigilance to tackle fraud.

Covid-19 Emergency

Towards the end of the 2019/20 financial year, like all other public bodies, the Authority faced unprecedented circumstances as a result of the response to the Covid-19 pandemic. Consequently, the Authority was forced to scale back its operations and close its offices, visitor centres, cycle hire centres and campsites to Officers and members of the public.

In terms of business continuity, the Authority's existing Business Continuity Plan worked well and in terms of resilience most Officers who could work at home were quickly given the tools they needed to carry on remotely. In the first three weeks all Officers were paid in full whether they were able to work or not, after which 49 Officers whose salaries were funded directly from external income were furloughed.

With regard to decision making this continued through the Authority's existing Emergency Delegation to the Chief Executive. Through this delegation and supporting process the Authority was able to transparently continue making any time critical decisions while meetings of the Authority and its Committees could not take place. The Authority has also responded to the

emergency regulations put in place to arrange virtual decision making meetings involving Members.

The Authority has also played a significant role in supporting its partners during the national emergency through our representation on, and support of the objectives, of the Derbyshire Local Resilience Forum. Our activities include communicating the message for visitors to stay at home, protect the NHS and save lives, supporting the police in their work across the National Park and giving reassurances that we were continuing to care for the National Park and bringing nature, history and the beauty of our National Park indoors to people's homes.

The Leadership Team have set in place a rhythm of meetings to manage the organisation's response based on the following strategic objectives:

1. To support government messages - stay at home, protect the NHS, and save lives.
2. To support our staff as they work at home, unless undertaking essential safety tasks, in line with strict government guidance.
3. To return to business as usual (BAU) as much as possible with staff working from home, recognising the pressure on some services are impacting on some BAU activity.
4. To understand and manage down business costs and losses
5. To start to plan for recovery and the future

Before the lockdown ended the Leadership Team were actively planning on how the Authority could manage the recovery process. During 2020/21 the Authority will be reviewing its response to the emergency and using this to update our business continuity arrangements. There will also be social and financial challenges in the coming months as the international community recovers from the significant impact of the virus and the lockdown. This has therefore been identified as a key issue that will affect our effectiveness during 2020/21.

As part of our continuous improvement approach to our governance arrangements we have identified further issues to address as recorded below against the 7 core principles of our Code of Corporate Governance. A full record of our review of action and assurances received indicating maintenance and/or improvement to the effectiveness of elements of the governance framework can be obtained from the Monitoring Officer at Aldern House, Baslow Road, Bakewell, DE45 1AE or can be found on our website at

<http://www.peakdistrict.gov.uk/publications/operationalpolicies>

(A) Core Principle Behaving with integrity, demonstrating strong commitment to ethical values and respecting the rule of Law	
Issues identified which affect effectiveness	
1.	Embedding the new values and competency framework and delivering the IIP Action Plan.
2.	Uncertainties around the impact of the recommendations arising from the National Landscapes (Glover) Review on structures and funding and the timescales in which they are to be implemented.
3.	The impact of the 2020/21 funding settlement from Defra on delivery targets and uncertainty around the longer-term funding settlements from Defra following the end of the four-year settlement.
(B) Core Principle Making sure of openness and comprehensive stakeholder engagement	
Issues identified which affect effectiveness	
4.	Although the 2018-2023 National Park Management Plan has been approved and adopted by partners there are still risks around the delivery of certain elements such as sustainable business. This will be even more critical as local businesses and farmers recover from the Covid-19 emergency.
(C) Core Principle Defining outcomes in terms of sustainable economic, social, and environmental benefits.	
5	The ability for the Authority to be able to deliver on its Carbon Management and Climate Change ambitions within the prescribed timescales.
(D) Core Principle Determining the interventions necessary to optimise the achievement of the intended outcomes.	
Issues identified which affect effectiveness	
6.	There still remain issues around the culture of the Authority and its ability to deliver commercial ambitions.
(E) Core Principle Developing the Authority's capacity including the capability of its leadership and the individuals within it	
Issues identified which affect effectiveness	
7.	The impact on the suspension of development management pre-application advice service upon income targets and decision making.

(F) Core Principle Managing risks and performance through robust internal control and strong public financial management.	
Issues identified which affect effectiveness	
8.	There are still uncertainties around the impact of Brexit beyond 2020 due to ongoing trade talks.
(G) Core Principle Implementing good practices in transparency, reporting and audit, to deliver effective accountability.	
8.	The social and economic impact of COVID-19 will have a significant and currently unknown impact on the Authority and its ability to achieve its statutory purposes and corporate strategy targets.

Significant Governance Issues:

Other than the issues identified that may affect effectiveness there are no significant issues and the arrangements continue to be regarded as fit for purpose in accordance with the governance framework. However, over the coming year we will take steps to address the issues identified during our review of effectiveness as detailed above to further enhance our governance arrangements. We are satisfied that these steps will address the need for improvements that have been identified and will monitor their implementation and operation as part of our next annual review.
