Hi Fran

I have checked my email folders, local server drives and Natural England's Document Records.

I am not aware of any written communication that the track would be required although there might have been discussion about this when a possible project was being discussed (a project that never materialised even so far as a plan) or in a site visit with Dan Richmond-Watson, John Keeley and Rhodri Thomas; it might have been Rhodri who raised that question on the day.

The subject of the track, use and condition, was due to be considered as part of the HLS Plan review in 2018.

I attach the letter and advice sent to Wakefield Farms and the corresponding letter to PDNPA – I think you will have seen these.

Kind regards

Richard
