

Anniversary Gates in the Peak District National Park

Anniversary Gates celebrates the 20th anniversary of the right to roam in the 70th year of the National Park by improving access and accessibility to help all to explore, understand, and connect with its wilder areas.

Sometimes a stile can be a step too far. Anniversary Gates overcomes obstacles to build confidence by replacing and renewing access points and providing the information to enable a right to roam for everyone.

It focuses on several key areas to complement the work on Miles without Stiles easy access routes and for a walk on the Wild Side to explore the spirit of the uplands and the passion of the Peak District.
