Subject: RE: Midhope Moor Track - Proposed Enforcement Action

Hi Felicite

Further to the e-mail below, and our brief discussion when you came in for the meeting last Thursday (19 July), I am writing to clarify the information I am seeking from Natural England.

Since sending the e-mail below, one of my colleagues has pointed out that this Authority carried out a HRA in relation to the recent retrospective planning application and this was reported to, and adopted by, our Planning Committee on 15 June 2018. The HRA was informed by comments that had been received from Natural England. I have therefore been advised that there is no need for us to carry out another HRA. So you can effectively ignore my request for assistance with an assessment.

However, it would still be helpful to have your comments and suggestions on the enforcement notice requirements.

I will be on annual leave from this Friday (27 July) and will be returning on Monday 13 August. At this stage I am intending to finalise and issue the enforcement notice in the week commencing 13 August so it would be helpful to have Natural England's comments before that date.

As mentioned in my e-mail below, if you are not the right person to deal with this could you please forward my request on as appropriate and let me know you have done so.

Thanks

Andrew Cook
