		<p>EIR - The Institution of Power Engineers is a professional body and included in our activities is the preparation of annual report on power generation facilities. I am writing to PDNPA to ask if the authority would be willing to assist IPowerE with our annual report by providing data from the various hydro electric power plants within the national park. The data required is quite straight forward and should be easily completed.</p> <p>Attached is a report template to be completed for each power plant taking part in the survey. We will be very pleased to have a return from all the major plants and would also welcome others to take part.</p> <p>IPowerE has been in existence since 1913 and over the years has reported on power plants both in the UK and overseas. The report now in preparation will be our 98th Annual Report. In 2019 our institution had a name change and this has now enabled all forms of power generation to be reported. I have also attached a brochure describing the operational report.</p> <p>RESPONSE: 03/02/2022 - acknowledgement and response. We do not have any major hydro-electric plants in the Peak District National Park, however there are a small number of private schemes which have sought planning permission in the past 10 years, however we will not be collecting any information from them and also, will not know whether the developments were in fact completed.</p>	02 Feb 2022	02 Mar 2022	01 Mar 2022	NO	NO
