

# Peak District National Park Management Plan 2018-23 Overall Progress Report

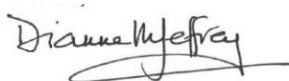

## FOREWORD

The fifth year of the 2018 – 2023 Peak District National Park Management Plan has been full of change and we close this period of reporting with enthusiasm for the next plan period and optimism as we build on previous successes. The rhythm of life across the landscape of the park has returned to a 'new normal' following the turmoil of the previous few years. I am extremely proud of the progress within this Management Plan period and extend my sincerest thanks to all the partners involved in delivery.

Moorland restoration work has continued as the Moors for the Future partnership successfully delivered activities on 551 ha of degraded blanket bog and blocked erosion in over 11,000 gullies to the equivalent distance of circa 55km. Encouraging visitor enjoyment and engagement has been further boosted this year with a pilot of multi-lingual signage at Bloor Pastures and downloadable interpretive content at Stanage North-Lees Estate, plus an additional six 'Miles without Stiles' routes have been completed.

The following report provides detail on the overall progress on implementing the Peak District National Park Management Plan 2018-23. I am extremely proud of the partnership work which has contributed to the successful delivery over the past two plan periods, and after 10 years the Advisory Group, of which I am the Independent Chair, has come to a close with the end of this plan. I wish the Peak District National Park Authority and all the delivery partners all the best as they strive to achieve the ambitious aims outlined in the next National Park Management Plan (2023-28).

Yours sincerely

Dianne Jeffrey

Independent Chair of the Peak District National Park Management Plan Advisory Group

## INTRODUCTION

The National Park Management Plan provides the framework that encourages everyone to work together to achieve national park purposes. It is not a plan for an individual organisation or group but a plan for the place. It is, therefore, a partnership plan. It is the single most important strategic document for the Peak District National Park. It shares with everyone what the main issues and priorities are. It then sets out how, together, we are going to tackle those issues over the next five years.

The Management Plan 2018-23 was organised around six main themes known as Areas of Impact, which were in turn broken down into a series of intentions.

### Areas of Impact

1. Preparing for a future climate
2. Ensuring a future for farming and land management
3. Managing landscape conservation on a big scale
4. A National Park for everyone
5. Encouraging enjoyment with understanding
6. Supporting thriving and sustainable communities and economy

This document provides a look back over the last five years to report key activity in the Areas of Impact as detailed above.

## AREA OF IMPACT 1:

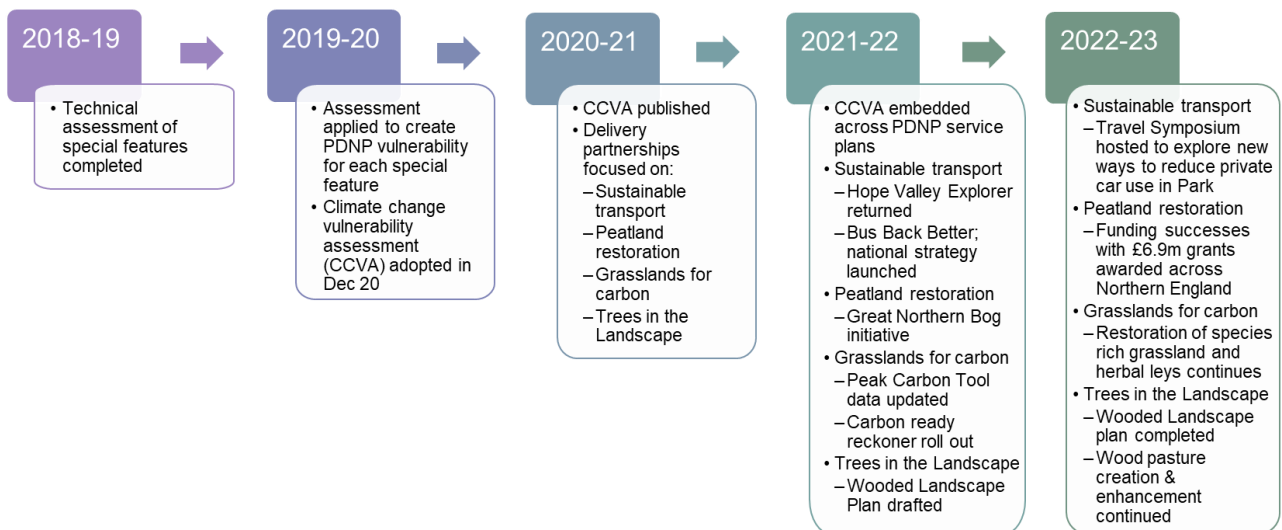

### PREPARING FOR A FUTURE CLIMATE

#### INTENTION 1.1: REDUCE THE EFFECTS OF CLIMATE CHANGE ON THE SPECIAL QUALITIES

##### ACTION

To reduce the effects of climate change on the special qualities, we will know which special qualities are most affected by climate change, and focus action on reducing these impacts. We will undertake a climate change vulnerability assessment on the special qualities of the National Park & produce a mitigation/adaptation plan setting out priority actions.

##### 2018 – 2023 KEY PROGRESS

## AREA OF IMPACT 2:

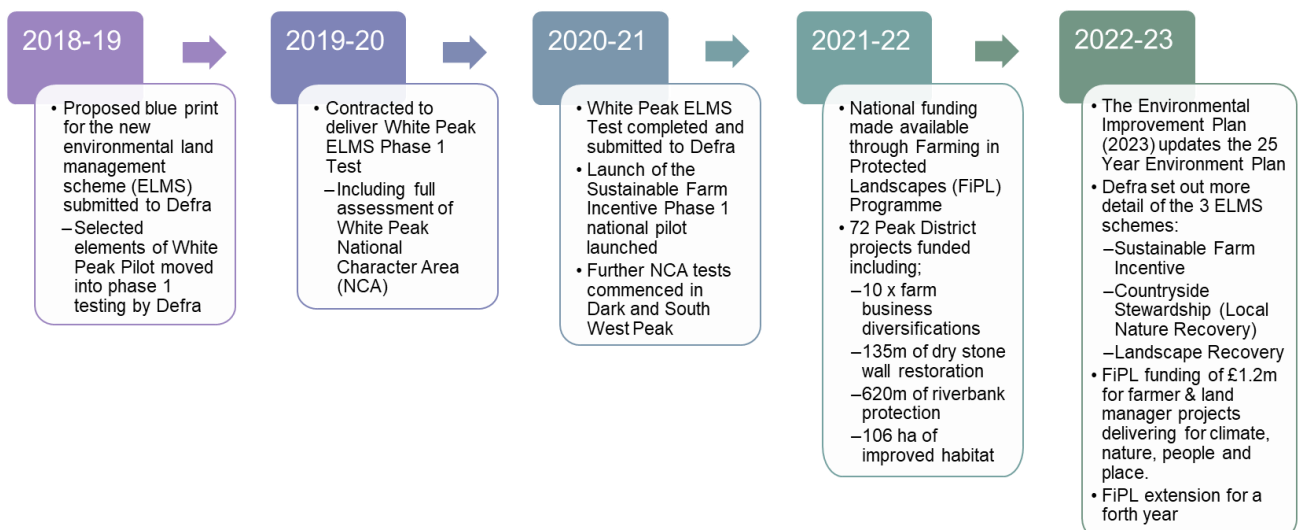

### ENSURING A FUTURE FOR FARMING AND LAND MANAGEMENT

#### INTENTION 2.1: SECURE FUNDING FOR FUTURE LAND MANAGEMENT TO BENEFIT ALL

##### ACTION

To secure funding for future land management to benefit all, we will seek to create an ideal future farming and land management payment scheme in the Peak District National Park which helps to conserve and enhance the special qualities.

##### 2018 – 2023 KEY PROGRESS

## AREA OF IMPACT 2:

### ENSURING A FUTURE FOR FARMING AND LAND MANAGEMENT

#### INTENTION 2.2: ENSURE THAT THE MANAGEMENT OF UPLAND MOORS DELIVERS ENVIRONMENTAL, SOCIAL & ECONOMIC BENEFITS

##### ACTION

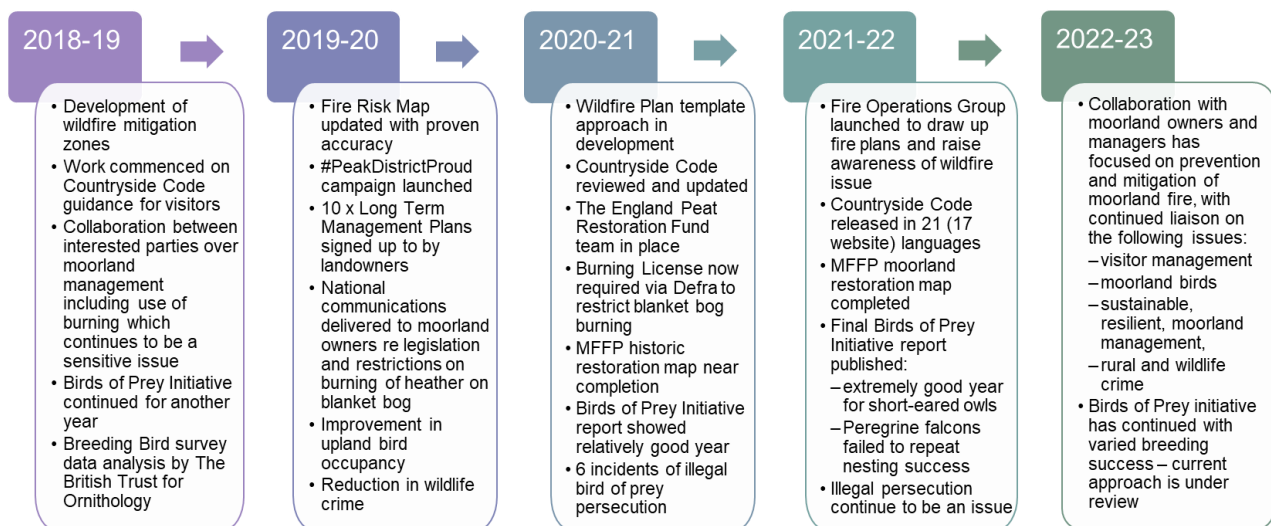

To ensure that the management of upland moors delivers environmental, social & economic benefits; we will seek to restore populations of birds of prey to at least the levels present in the late 1990s, with the addition of hen harrier as a regularly successful breeding species.

Focusing on:

1. Fire risk
2. Visitor engagement
3. Resilient sustainable moorland
4. Moorland birds

Regular monitoring of progress against these areas of focus is carried out in partnership between Natural England, the Moorland Association and the National Park Authority. There is also an annual up-date on progress and agreement on the focus for the future year's activity with moorland owners, agents and keepers.

##### 2018 – 2023 KEY PROGRESS

### MANAGING LANDSCAPE CONSERVATION ON A BIG SCALE

#### INTENTION 3.1: ESTABLISH MONITORING AT A LANDSCAPE SCALE
