	<u>PE\2026\ENQ\53705</u>	<p>EIR - I'm writing to request a copy of your Tree Preservation Order register under the Freedom of Information Act 2000.</p> <p>I'm looking for a digital, machine-readable dataset containing: TPO reference numbers, locations (as coordinates - either WGS84 lat/lng or Ordnance Survey grid references), species where recorded, tree type classification (individual tree, group, area, or woodland), addresses, and dates orders were made or confirmed. A GIS export such as Shapefile, GeoJSON, GeoPackage, KML, or CSV with coordinates would be ideal.</p> <p>If this data is already publicly available somewhere, a link would be very welcome - I'm just keen to make sure I'm working from the most up-to-date version possible.</p> <p>RESPONSE: 17/04/2026 - Final response - refused under Reg 12(4)(d) material in the course of completion.</p>	02 Apr 2026	17 Apr 2026	01 May 2026	YES	NO
FOI Request							
	<u>PE\2026\ENQ\53668</u>	<p>FOI - Please find attached a Freedom of Information request relating to your back-office systems for planning/building control and environmental services. I've tried to set it out in a questionnaire format to make it as easy as possible to work through.</p> <p>By way of background, I'm currently undertaking a piece of independent research into the planning technology landscape across England, Scotland and Wales looking at</p>	24 Mar 2026	29 Apr 2026	07 May 2026	YES	NO

	<p>how local planning authorities are served by their current back-office systems, the contractual arrangements in place, and the extent to which the market is open to new entrants and innovation. It's a space that's getting a lot of attention at the moment with the government's digital planning programme and the broader push to speed up the planning system, and I think there's real value in building a clearer picture of where things stand.</p> <p>I appreciate that some of the questions touch on commercial arrangements, and I've included a note at the end of the request about exemptions and the public interest test. If anything is unclear or you'd like to discuss the scope before responding, I'm very happy to have a conversation. I'd much rather work with you to get a useful response than have the request refused on technicalities.</p> <p>If it would be helpful, I'm also available to speak with anyone in the planning or IT team who might be interested in the broader research. I'm hearing some fascinating things from councils across the country about the challenges and opportunities in this space, and I'm always happy to share what I'm learning.</p> <p>RESPONSE: 17/04/2026 - initial response, completed questionnaire provided but reviewing contracts with NEC Legal team to identify elements/clauses that may be subject to exemptions, Section 43(2) and 41. Requested extension of time until 07/05/2026 to provide full response.</p> <p>RESPONSE: 29/04/2026 - Final response - some information withheld and some provided with redactions. Application of S43(2), and S40.</p>

<p><u>PE\2026\ENQ\53709</u></p>	<p>FOI - Under the Freedom of Information Act, I would like to request the following information for each calendar year from 2020 to 2026 inclusive:</p> <ol style="list-style-type: none"> 1. The number of cyber security breaches that have being identified that were found to be a result of a malicious threat actor (i.e. not accidental data breach) 2. The breakdown in high-level causes of these breaches as identified by cyber security incident response teams (CSIRTs), for example (but not limited to) unpatched software/hardware, lack of multi-factor authentication (MFA), leaked user credentials, lack of in-transit encryption, etc 3. The number of breaches that occurred that were attributed to a previously known vulnerability to the organisations hardware, software, policies, or processes, for example where system was known to be at risk due to being unpatched or out of support, or security controls were recommended but not enforced, and was defined within the resulting incident response report. 4. The estimated combined costs incurred as a result of cyber security breaches defined in request number one in each year. <p>No specific details are requested in relation to software/hardware utilisation, but rather high-level causes of breaches. I believe the high-level nature of this request does not allow for the use of s.31(1)(a) of the FOIA as this would not be likely to prejudice the security of your systems or data, as these are historical incidents which have since been dealt with.
