Your ref:

Our ref: MIN2382

Date: 22 August 2008

Dear Mr Goodyear

Town and Country Planning (Environmental Impact Assessment) (England and Wales) Regulations 1999

I refer to your letter of 20 August 2008, provided in response to the letter of 12 August 2008.

In the letter of 12 August 2008, we expressed the view that Glebe did not appear to be an applicant in respect of the ROMP application, but sought information and an explanation from you if you considered yourself to be an applicant. In your letter of the 20 August you claim to be an applicant and provide some reasoned explanation. Do you have any further details to support your claim, for example, any correspondence with other parties with an interest in the application and a legal opinion which you may have sought and are prepared to provide to the Authority in support of your claim?

I note you have provided ownership details of Deep Rake. This area was included in the consolidating application for which permission was subsequently granted in 2004, following the signing of a S.106 agreement. Following the signing of the agreement a revocation order was pursued and subsequently confirmed by the Secretary of State. Therefore, the 1952 permission no longer exists on the Deep Rake area and, as such, there is no requirement to review this area under the ROMP.

I await your response.

Yours sincerely

David Bent
