Dear Mr Withinshaw

**Longstone Edge - Review of Old Minerals Permission**

Further to my letter of 2 September, I can confirm that the Authority agrees to extend the time for provision of information relating to the ROMP to 31 December 2009.

Please note for the avoidance of doubt that in order to properly inform the ROMP process we would expect at this stage to receive information to verify the extent and structure of the mineralised veins and the quantity of vein mineral. This would include borehole and trench data obtained from geological investigations in the field supported by geological memoirs and mineral output returns.

I would suggest that your client contacts the Authority's Minerals Team if he needs further clarification of what is required.

Yours sincerely

**Bev Primhak**  
**Head of Law**
