Dear Mr Withinshaw

Longstone Edge - Review of Old Minerals Permission

I am writing to advise that following discussions between the Authority's Director of Strategy & Development, John Lomas, and Mr Robin Harpley of Bleaklow Industries Limited, and related discussions between John Lomas and Mr Gary Goodyear of Glebe Mines Limited, the Authority agrees to extend the time for provision of information relating to the ROMP to 31 March 2010.

Please note for the avoidance of doubt that this further extension of time has been granted in order that Glebe can consider a letter from the Authority's advisers GWP Consultants and carry out trialling specified. The letter sets out a brief explanation of the site investigation needed to indicate the extent and structure of the mineralised veins. Glebe needs to respond on the suggested requirements for trial holes and pits, and on the likely timing for doing the work. If issues are raised about being able to complete the investigations and to submit a report to the Authority by 31 March we would discuss an appropriate timetable with Glebe.

If your client requires further clarification at this stage I suggest that he contacts John Lomas.

Yours sincerely

Bev Primhak
Head of Law
